SKILLS

Javascript   HTML   CSS   React   Redux-toolkit   Node.js   Express   MongoDB

Three.js   SASS   ChakraUI   GSAP   Typescript   Photoshop   Illustrator   Figma

PROJECTS / INTERNSHIPS

Software Development Internship (File Manager)

Kyocera Document Solution Pvt. Ltd

7th May 2020 - 7th October 2020   Work from home

Created a file managing web application for the company with modern UI. Implemented a shared team file directory system like Dropbox right in the browser with access control feature using EJS, NodeJS, Express and MongoDB. Worked on features like auth, admin access, managing teams, sharing files within and among teams and all core file management features like cut, copy, paste, preview for both files and folders.

PARS.css

Created a component library to style and rapidly prototype components of a web app. Documentation library built using React.js and Prism.js. Created Bootstrap style component library for core elements, which follow BEM style.

Fact&Fict Ecommerce Book Store

Implements all the functionality of an ecommerce store with clean UI. Frontend is handled using React and Context API. Backend built using Express/MongoDB. Cart, wishlist, filter, auth, routing etc. implemented.

Vidi Video Sharing Social Media App

React and Typescript application that allows users to share and explore videos. Gives feature to follow channels, create and edit playlist, add comments, like videos and save to watch later. Auth, routing, lazy loading and infinite scroll also implemented. Backend implemented using NodeJS, Express and MongoDB. Auth handled using JWT. Socket.io used to implement notifications. Formik and Yup used to manage and validate forms.
